By Patricia Derrick

LAS VEGAS, Aug. 25, 2011 – An original song - sings the words in the text of the story. Pre-readers and non-English speaking learners around the world can now sing-along: *The inclusion of a song is ingenious. It elevates the ebooks to more than a reading experience. By employing music, the author provides more tools for teaching.* -**Writer's Digest.**

Animalations apps are available in 122 countries with the greatest downloads in USA, Canada, UK, South Africa, China, Japan, Australia, Chile, Thailand, France, Singapore, Jamaica, Indonesia, India and United Arab Emirates. Non-English speaking learners enjoy each story as they learn the English language.

Author Patricia Derrick brings vast experience and knowledge regarding early childhood and language development. As founder and director of SpringStone Montessori Schools, Derrick has authored a full-line of children's ebooks designed to educate while viewers experience music and language.
